1.4 | **EMERGENCY TELEPHONE NUMBER**

FOR URGENT INQUIRIES REFER TO

Call 911 if you have a poison emergency.
Call the CDC if swallowed but person is alert 1-800-222-1222

---

2 | **HAZARDS IDENTIFICATION**

2.1 | **CLASSIFICATION OF THE SUBSTANCE OR MIXTURE**

The product is classified as hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a safety data sheet that complies with the provisions of EC Regulation 1907/2006 and subsequent amendments.

Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

**DANGER SYMBOLS**

| Xi |

**R PHRASES**

| 38 – 41 |

The full wording of the Risk (R) and hazard (H) phrases is given in section 16 of the sheet.

2.2 | **LABEL ELEMENTS**

Hazard labeling pursuant to Directives 67/548/EEC and 1999/45/EC and subsequent amendments and supplements.

**IRRITANT**

| S1/2 | Keep Out Of The Reach Of Children. |
| S22 | Do not breathe dust. |
| S24/25 | Avoid Contact With Eyes. |
2.3 | OTHER HAZARDS

CORROSIVE

R35 Causes Severe Burns To Eyes.
R37 Irritating to Respiratory System.

3 | COMPOSITION/INFORMATION ON INGREDIENTS

3.1 | SUBSTANCES

Information not relevant.

3.2 | MIXTURES

The full wording of the Risk (R) and hazard (H) phrases is given in section 16 of the sheet.

4 | FIRST AID MEASURES

4.1 | DESCRIPTION OF FIRST AID MEASURES

Nevertheless, observance of good industrial hygiene is recommended.
4.2 | MOST IMPORTANT SYMPTOMS & EFFECTS, BOTH ACUTE & DELAYED
No episodes of damage to health ascribable to the product have been reported.

4.3 | INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION & SPECIAL TREATMENT NEEDED
Information not available.

5 | FIREFIGHTING MEASURES
5.1 | EXTINGUISHING MEDIA
SUITABLE EXTINGUISHING MEDIA
The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulized water.

EXTINGUISHING MEDIA WHICH SHALL NOT BE USED FOR SAFETY REASONS
None in particular.

5.2 | SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE
HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE
Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc.).

5.3 | ADVICE FOR FIREFIGHTERS
GENERAL INFORMATION
Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS
Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and antistatic), a depressurized mask with facemask covering the whole of the operator’s face or a self-respirator (self-protector) in the event of large quantities of fume.

6 | ACCIDENTAL RELEASE MEASURES
6.1 | PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT & EMERGENCY PROCEDURES
Use breathing equipment if fumes or powders are released into the air.

6.2 | ENVIRONMENTAL PRECAUTIONS
The product must not penetrate the sewers, surface water, ground water and neighboring areas.
6.3 | METHODS & MATERIAL FOR CONTAINMENT & CLEANING UP
Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4 | REFERENCE TO OTHER SECTIONS
Any information on personal protection and disposal is given in sections 8 and 13.

7 | HANDLING & STORAGE
7.1 | PRECAUTIONS FOR SAFE HANDLING
Store in closed, labeled containers.

7.2 | CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES
Normal storage conditions without particular incompatibilities.

7.3 | SPECIFIC END USE(S)
Information not available.

8 | EXPOSURE CONTROLS/PERSOAL PROTECTION
8.1 | CONTROL PARAMETERS

8.2 | EXPOSURE CONTROLS
As the use of adequate technical equipment must always take priority over personal protection equipment, make sure that the workplace is well aired through effective local aspiration or bad air vent. If such operations do not make it possible to keep the concentration of the product below the permitted workplace exposure thresholds a suitable respiratory tract protection must be used. See product label for hazard details during use. Ask your chemical substance suppliers for advice when choosing personal protection equipment. Personal protection equipment must comply with the rules in force indicated below.

HANDLING PROTECTION
Protect hands with category III (ref. Directive 89/686/EEC and standard EN 374) work gloves, such as those in PVA, butyl, fluoroelastomer or equivalent. The following should be considered when choosing work glove material: degradation, breakage times and permeation. Work glove resistance to preparations should be checked before use, as it can be unpredictable. Gloves’ limit depends on the duration of exposure.
EYE PROTECTION
Wear hood visor or protective visor together with airtight goggles (ref. Standard EN 166).

SKIN PROTECTION

RESPIRATORY PROTECTION
If the threshold value for one or more of the substances present in the preparation for daily exposure in the workplace or to a fraction established by the company’s prevention and protection service is exceeded, wear a mask with an A or universal filter, the class (1, 2 or 3) of which must be chosen according to the limit concentration of use (ref. standard EN 141).

The use of breathing protection equipment, such as masks with organic vapour and dust/mist cartridges, is necessary in the absence of technical measures limiting worker exposure. The protection provided by masks is in any case limited.

If the substance in question is odourless or its olfactory threshold is higher than the relative exposure limit and in the event of an emergency, or when exposure levels are unknown or the concentration of oxygen in the workplace is less than 17% volume, wear self-contained, open-circuit compressed air breathing apparatus (ref. Standard EN 137) or fresh air hose breathing apparatus for use with full face mask, half mask or mouthpiece (ref. Standard EN 138).

An emergency eye washing and shower system must be provided.

| VOC (DIRECTIVE 2004/42/EC) | 0.00 g/l |
| VOC (VOLATILE CARBON)     | –       |

10 | STABILITY & REACTIVITY

10.1 | REACTIVITY
There are no particular risks of reaction with other substances in normal conditions of use.

10.2 | CHEMICAL STABILITY
The product is stable in normal conditions of use and storage.

10.3 | POSSIBILITY OF HAZARDOUS REACTIONS
No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4 | CONDITIONS TO AVOID
None in particular, however the usual precautions used for chemical products should be respected.

10.5 | INCOMPATIBLE MATERIALS
Information not available.

10.6 | HAZARDOUS DECOMPOSITION PRODUCTS
In the event of thermal decomposition or fire, vapours potentially dangerous to health may be released.

11 | TOXICOLOGICAL INFORMATION

11.1 | INFORMATION ON TOXICOLOGICAL EFFECTS
This product is corrosive and causes serious burns and vesicles on the skin, which can arise even after exposure. Burns are very stinging and painful. Upon contact with eyes, it may cause serious harm, such as cornea opacity, iris lesions, irreversible eye coloration. Possible vapours are caustic for the respiratory system and may cause pulmonary edema, whose symptoms sometimes arise only after some hours. Exposure symptoms may include: sting, cough, asthma, laryngitis, respiratory disorders, headache, nausea and sickness. If swallowed, it may cause mouth, throat and oesophagus burns, sickness, diarrhoea, edema, larynx swelling and, consequently, asphyxia. Perforation of the gastro-intestinal tract is also possible.
12 | ECOLOGICAL INFORMATION

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

12.1 | TOXICITY

Toxicological data are not available.

12.2 | PERSISTENCE & DEGRADABILITY

Toxicological data are not available.

12.3 | BIOACCUMULATIVE POTENTIAL

Toxicological data are not available.

12.4 | MOBILITY IN SOIL

Toxicological data are not available.

12.5 | RESULTS OF PBT & vPvB ASSESSMENT

Toxicological data are not available.

12.6 | OTHER ADVERSE EFFECTS

Toxicological data are not available.

13 | DISPOSAL CONSIDERATIONS

13.1 | WASTE TREATMENT METHODS

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorized waste management firm, in compliance with national and local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

14 | TRANSPORT INFORMATION

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.
15 | REGULATORY INFORMATION

15.1 | SAFETY, HEALTH & ENVIRONMENTAL REGULATIONS/LEGISLATION SPECIFIC FOR THE SUBSTANCE OR MIXTURE

SEVESO CATEGORY

None

RESTRICTIONS RELATING TO THE PRODUCT OR CONTAINED SUBSTANCES PURSUANT TO ANNEX XVII TO EC REGULATION 1907/2006.

3

SUBSTANCES IN CANDIDATE LIST (ART. 59 REACH)

None

SUBSTANCES SUBJECT TO AUTHORIZATION (ANNEX XIV REACH)

None

HEALTHCARE CONTROLS

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers’ health and safety are modest and that the 98/24/EC directive is respected.

VOC (DIRECTIVE 2004/42/EC)

Exterior walls of mineral substrate.

VOC given in g/litre of product in a ready-to-use condition

LIMIT VALUE 40.00 (2010)

VOC OF PRODUCT 4.43

15.2 | CHEMICAL SAFETY ASSESSMENT

No chemical safety assessment has been processed for the mixture and the substances it contains.

16 | OTHER INFORMATION

TEXT OF RISK (R) PHRASES MENTIONED IN SECTION 2–3 OF THE SHEET:

R38 Irritating to Skin.

R41 Risk of Serious Damage to Eyes.
