

Authentic Italian beauty you can't replicate.

Whitewashed brick exteriors are gorgeous, and have a charming Old World feel. They have a freshly painted look, but because some of the brick remains exposed, the warmth and quality endures.

CLASSICO LIMEWASH

One Coat Process for Absorbent, Unpainted Brick, Stone, or Other Masonry. No Primer Needed.

1L/1 QT covers 90-120 Sq/Ft

2.5L/.67 GAL covers 215-300 Sq/Ft

15L/4 GAL covers 1300-1800 Sq/Ft

Express your unique style in one, easy coat of paint.

"Can we talk Limewash? Because Romabio Paints gave the outside of our home a whole new life! Out with the orange brick, in with the crisp white....The front of the house took me about 2 weeks to complete and this product was as forgiving as it was easy to apply. I played around a few times with the wash off process before I finally got the look I was going for, and couldn't be happier with the end result. If you're looking to transform any brick in your home, Romabio Paints is the way to go!"

- Halo + Hickory Designs

"We did our fireplace and I was so nervous to paint over these pretty bricks, but the red wasn't working for our style. Luckily, we love how it turned out." - @jessiemaes

Create the home you've always wanted with a unique limewash finish.

Different than other paints.

Romabio Masonry Paints are BIO (bio-logical), made from nature. They are not acrylic or latex paints. They are mineral based paints that are derived from sustainable materials to create a natural, breathable coating. BioDomus™ I and BioDomus™ II are both high-performing paints that are inherently the same. The only difference is BioDomus I is an extremely flat finish giving you a traditional painted masonry look, and BioDomus II has slight aggregate in it to create a textured look on smooth brick or a smooth finish on a rough surface.

A 20 year warranty you can trust.

BioDomus I and II are Italian designed mineral paint technologies that have been proven over time. These paints have high perm ratings of 70+ allowing trapped water vapor to diffuse or escape from the masonry surfaces, unlike acrylic paints. We guarantee they will last 20 years with no peeling or chipping when applied properly.

It's breathable and naturally mold-resistant.

Romabio Masonry Paints are made from natural ingredients that when dry, form a honeycomb structure that contributes to a breathable wall system. A breathable wall means these paints will NOT seal the surface, but moisture and air can move through it reducing the buildup of stagnant moisture that contributes to mold growth, toxic air, and other issues. Acrylic coatings are not breathable and trap moisture.

Natural beauty and luminous colors.

BioDomus I and II are naturally beautiful because of the high mineral content. Different than a shiny acrylic finish, the flat finish on brick or stone becomes like a rock like the masonry surface. Color possibilities are almost unlimited as you can match other color palettes or choose from over 200 colors in the Romabio color deck. And, with an extremely high-UV resistance, it extends the performance of the product.

Good for you and the environment.

Toxin-free, made with natural ingredients, and backed by 3rd party scientific testing, you can trust our paint is safe for you, your family, and the environment.
