

WHITES & NEUTRALS

Product Options

These colors are available in all products and work perfectly for an antique, wash off effect with Classico® Limewash or as a solid finish with Lime Slurry, Masonry Flat or Masonry Textured.

Tips for Choosing a Color

- Choose a color that is in the same warm or cool tonality to compliment the fixed elements of your home.
- The color of the brick or surface to be painted is less important than the colors around it. Romabio paints are opaque, flatter finishes that will completely cover and not allow the brick color to bleed through.
- Off-whites Avorio White, Richmond White, and Grace Note are easy to work with as they go with warm and cool tones.

To see inspiration photos, scan the QR below and search by the color hashtags.

Tips for Application

Romabio paints are easy to apply with brush, roller, or sprayer and may require dilution. Check the instructions on the back label and get more resources at romabio.com/toolkit.

If you need help with application, be sure to get a Romabio Preferred PRO. Fill out the form at romabio.com/needapro and we will connect you with one in your area.
