

## ABOUT ROMABIO

Designed and crafted in Italy, Romabio manufactures fine interior and exterior mineral paints, lime paints, plasters, and other finishes. Pronounced (row\*muh - bi\*ow), we use 2,000-year-old techniques and modern technology to create luminous and natural finishes like no other.

“*The slaked-lime in Romabio’s plasters gives them unparalleled strength, working time, and luster. They have become our go-to plasters for all applications.*”

## AUTHENTIC & ITALIAN CRAFTED

Romabio offers decorative paints and plasters traditionally made, naturally healthy, breathable, and toxin-free. We offer the highest-quality, easiest to use product that can create multiple effects on the interior and exterior.

Achieve subtle movement for an interior limewash effect with no primer needed with **Velatura Mineralwash** or for more drama, we offer **Venetian Glaze**, a plaster-like paint. Both are easy-to-use paints giving you creativity and artistic freedom without fully committing to plaster.

And with two different types of plaster systems, Romabio has a range of products to help you achieve an authentic, rustic countryside Italian villa look, a high-end Venetian finish or endless other unique and modern artistic effects. Romabio Italian **Slaked-Lime Plasters** are sturdy, UV-resistant, and do not fade. Romabio **Unico Plasters** are extremely durable and you can find all the products you need in one system.

## FINISH TYPES & PRODUCTS

- **VELATURA MINERALWASH** - Mineral-based paint used to create interior limewash movement effects for soft tonal variations. Easily apply with a brush in a cross-hatch technique in two coats that requires no primer, perfect for DIYer.
- **VENETIAN GLAZE** - Authentic Italian lime glaze paint that creates multiple effects. Apply it undiluted with a trowel to create a plaster-like finish that can be flat or easily burnished. Heavily dilute it and use it on stone for veiling effects to color shift or use it on stucco for mottling effects.
- **SLAKED-LIME PLASTERS** - Traditional, slaked-lime plasters crafted by our Italian experts with lime from the Dolomite Mountains that is cooked, slaked, and then aged for 9 to 12 months, guaranteeing the proper curing and calcification to eliminate flashing, or cracking during application. With a modern proprietary formulation, it has exceptional ease of use designed for Professional applicators. Products include Marmorino GF, Marmorino Satin, Marmorino Flat, Grassello High Gloss, and Travertino.
- **UNICO PLASTERS** - All-in-one waterproof combination of products, perfect for kitchens, baths, and stairwells. It is extremely durable enabling Professional applicators to create progressive and artistic, marble-like effects on floors, walls, showers, and furniture with sanding - no burnishing needed. Products include a primer, base coats, topcoats, and floor wax.
